Welcome to Bumat

Bumat is the world's leading manufacturer of turntables. We supply turntables of any size and carrying capacity. You find our turntables at exhibitions and events, in showrooms and museums, in industrial facilities and theatres, in theme parks as well as in private homes. A lot of car enthusiasts are among our private clients. We are also specialists for kinetic systems like rotating architecture and residential applications.

Bumat is an owner-run family business, which has been installing turntables for well-known customers all around the globe since the company was founded in 1948.

We guarantee world-wide support and assistance provided by dedicated and competent installation and service technicians.

Made in Germany. Since 1948.
